Bond's advice would be most valuable. He will be at the Council.

TELEGRAPH WILDERSTONE.

IDLEROCKS, STONE, STAFFS.

[October 1925?]

Dear Fisher

I herewith enclose my rough draft of a letter to medical men to go with Bond's addition. Use it as much or as little as you like. Anyhow such printed papers should go with it as would enable a man to apply for fellowship. I pity you your job of revising such a draft. Something is wanted to hit them in the first sentence, I think.

Yours in haste L. Darwin
