

SCIENCE CONGRESS IN MELBOURNE

100 Will Attend From South Australia

At least 100 members from South Australia will attend the 22nd congress of the Australian and New Zealand Association for the Advancement of Science, to be held at the University of Melbourne from 1 to 31 January 1934. The president will be Sir Douglas Mawson, Professor in Geology and Mineralogy at the University of Adelaide. His address on the opening night will be on "The Unravelling of Antarctica."

For morning and afternoon sessions the congress will meet in 10 sections, each of which will deal with one branch of science. Where a subject has of interest to more than one section joint meetings will be held. Sixteen residential addresses will be given in the various sections. For each section lectures, papers, and in some cases discussions have been arranged.

A public lecture will be given on the first night of the congress by Dr. P. Marshall, of New Zealand, on "Volcanoes of the Pacific," and the Liverpool Research lecture on "Crucial Advances in Chemical Theory during the last Half Century" will be delivered by Sir George Julius, chairman of the Council for Scientific and Industrial Research, will also give a public lecture.

As the congress will be held during the school vacation it is expected that many teachers from this and other States will attend the meetings and excursions.

The South Australian secretary for the congress is Mr. E. S. Burden. Lectures in Physics at the University of Adelaide. The general organisers are Mr. E. R. Pitt, of the Melbourne Public Library, and Dr. F. I. Stillwell, of the University of Melbourne.

Mr. G. L. Amos Winner Of John Bagot Scholarship

The faculty of science examinations results were announced yesterday at the Adelaide University. Mr. George Lewis Amos has been recommended for the John Bagot scholarship.

Mr. Amos gained top credit in mathematics I, and passed in organic chemistry II. He is studying at the University with the intention of being a chemist. He attended the Adelaide Technical School, he is interested in nine subjects in the intermediate examination. At the Unley High School he studied for his leaving, gaining six subjects. In the leaving honors, which he took while at the Adelaide High School, he passed in four subjects. He is interested in debating, and often takes part in debates at the University. He is a member of the Clarence Park Dramatic Society, and a Cubmaster of the 1st Goodwood Pack.

The John Bagot scholarship, founded by Mrs. John Bagot in memory of her husband, provides exemption from fees in the botanical department for one year, to be extended over two years should the conduct of the student be satisfactory. Should it be awarded to a student already entitled to exemption from such fees, it is awarded at the option of the student. In books, instruments of equal to the value of £20. Until 1932 a medal was awarded with the scholarship, but it is now forfeited annually for the best original work in botany embodied in a thesis.

MUSIC AWARDS Scholarship And Prize Recommendations

In music awards which were announced yesterday, the examiners have recommended to the council of the University of Adelaide that the following be recommended for award to the following—

Theory of music, Ella Edna Eckermann; practice of music, Clarence Eckermann; grade III, practice of music exhibition, Delma Joy Worden; and Grade IV, practice of music exhibition, Alison May Nelson.

Alan Coad has been recommended by the examiners for the Eugene Alderman Memorial Prize, and Ronald Barnden, who is a bass-baritone, and a pupil of Mr. Winsloe Hall at the Conservatorium, won prizes at the Adelaide competitions and at Ballarat this year.

Black, Grade III; practice of music exhibition, Delma Joy Worden; and Grade IV, practice of music exhibition, Alison May Nelson.

Alan Coad has been recommended by the examiners for the Eugene Alderman Memorial Prize, and Ronald Barnden, who is a bass-baritone, and a pupil of Mr. Winsloe Hall at the Conservatorium, won prizes at the Adelaide competitions and at Ballarat this year.

Novo 23-11-34

He also plays the piano, and is desirous to take up music as a profession.

The Alexander Clark Memorial Prize was founded by the Public Schools Department and Floral Society in memory of the late Alexander Clark. It is of an annual value of £12 10s, and is tenable for three years at the Elder Conservatorium.

Ronald Barnden, who is 11, has been learning the piano for two years from Mr. William Silver at the Elder Conservatorium School. His sister, Miss Vera M. Barnden, who recently gained the Bachelor of Music degree, was the piano teacher in 1929. The school prize was provided by public subscription in memory of the late Eugene Alderman, a teacher of violin in the Elder Conservatorium. Two scholarships are offered each year, £18 10s annually. One is awarded for the violin and the other for any of the following instruments—Violin, violoncello, pianoforte, organ, or singing.

AMBITIOUS SURVEY OF AUSTRALIA

Thirty Year Plan To Be Put To Minister

CANBERRA, November 22.—To urge the Commonwealth Government to undertake a geodetic and topographical survey of Australia, a deputation from the Australian Survey Committee, headed by Professor H. Payne, of the Melbourne University, will interview the Minister in charge of Development (Senator McLeish) in Melbourne tomorrow.

The proposal is for an immense work, to be extended over 30 years, and the final cost would be more than £1,000,000.

For this reason it is expected that Senator McLeish will not feel the deputation that there is no immediate possibility of the Commonwealth undertaking such an expenditure, though it is recognised that Australia is much behind other civilised countries in not having this work done.

Plans For Geophysical Survey

CANBERRA, November 22.—Nine technical experts employed by the Commonwealth Government in the aerial geophysical survey of Northern Australia, have been invited to today's Commonwealth Gazette.

The headquarters of the survey for the first year will be at Cloncurry Queensland, but the geologists will establish field bases in areas to be surveyed.

SURVEY PROPOSAL SUPPORTED

Value Stressed By Sir Douglas Mawson

"It is very important that steps should be taken to have an accurate and complete map in relation to all places in Australia," said Sir Douglas Mawson, professor in geology and mineralogy at the Adelaide University, yesterday at a proposal advanced by Canberra to ask the Commonwealth Government to undertake a geodetic and topographical survey of Australia. The scheme is for a huge work to be spread over 30 years at an estimated cost of more than £1,000,000.

Such a project, said Sir Douglas Mawson, should be begun without delay. Referring to a projected aerial geophysical survey of North Australia, Sir Douglas Mawson said this was also a most desirable step, and would perhaps be of more economic value than the other scheme, which nevertheless had his wholehearted support.

Mr. W. J. O'Connor Tops Medical Faculty

The results of the final year medical examinations were announced at the Adelaide University yesterday. Walter John O'Connor, who topped the faculty, has been recommended for the Everard Association (section of clinical medicine) Prize in Medicine.

Mr. O'Connor has had a brilliant scholastic career, and for years has been one of the best hockey players at the University. He is an old St. Peter's College boy. In 1931 he was awarded the Dr. David-Thomas scholarship in recognition of his distinguished work. Last year he was again awarded the Dr. David-Thomas scholarship in the Fitzroy College course. Also in 1931 he was awarded the junior Hoffmann-La Roche prize in pharmacology. He has played in four inter-university hockey contests and during this year's series he was one of the outstanding players in his team. In 1922 he was awarded his University blue for hockey.

The Everard scholarship is of the value of £30, and is awarded to the student who is placed first in the final examination for the degrees of Bachelor of Medicine and Bachelor of Surgery. The B.M.A. prize is awarded to the sixth-year medical student who obtains the greatest merit at the November examination in group I, Principles and Practice of Medicine. The prize will consist of medical works of the value of five guineas, to be selected by the student.

Three of the six credits given to medical students on the results of the final examinations have gone to old boys of Scotch College—Messrs. W. P. Cleland, J. B. Barbour, and P. M. Birks. Mr. B. S. Day, who passed in final, is also an old scholar of Scotch.

PRIZE FOR HISTORICAL PAINTING

The historical, arts, and sciences committee met at the Adelaide University this week to consider the question of offering a prize for the best historical painting, in connection with the South Australian Centenary celebrations. The committee is also investigating details of the historical exhibition presented in Melbourne during the Victorian Centenary celebrations, with a view to advising the South Australian committee with the similar exhibition being held in Adelaide during this State's centenary.
