10th July 1937

Dear Fisher,

Sorry I have not been able to let you have the tables before but several things turned up when I got back. I enclose a copy of the Orthogonal Square and Balanced Incomplete Blocks material, which is now complete. There remains the Polynomial fitting material, which I am now working on, and the graduations for ranked data, which I have not yet received from Stevens.

I will delay sending the material to Oliver and Boyd until everything is ready.

Yours sincerely,
