Professor R. A. Fisher,
University College,
Gower Street,
London, W.C.1.

Dear Fisher,

Many thanks for your letter re Neyman. I have written to him direct.

The grants for Wye and Boghall in the Wheat Sampling Scheme still seem to be hanging fire. Perhaps you could have a word with Wilkins as you are on the Committee and I am not. I am heartily sick of the whole policy of the Ministry in this matter, but it would be a pity to let the scheme break up just when it has got going.

Yours sincerely,

F. Yates

P.S. Just back from trawling with Wollaston. Very rough the whole time, but I survived.
