Prof. R. A. Fisher,
Galton Laboratory,
University College,
London, W. C. 1.

Dear Fisher,

Re χ^2 example, I have just had a letter from Mainland, who is very pleased with the correction and has been trying it out on various medical results, so I have asked him if he can turn up one or two suitable examples. I will let you know if he sends anything along.

Yours sincerely,

F. Yates
