

2 May 1931.

F. Yates, Esq.,
The Hays,
HALE,
Cheshire.

Dear Yates,

Many thanks for sending me the stuff. I am returning herewith the typescript material as you suggest. I hope you will get a letter at once offering you the post.

As you know I shall be away during June to August. If you are inclined to join us I hope it will be possible for you to come during the Summer, on the basis of initial pay, which may suit you financially, and would suit me, not only as giving you an opportunity of knowing the people here, and where to find things, but also for reading up what one may call the biometrical side of statistics, and in particular the work on tests of significance and the analysis of variance, as this is the method which everyone who comes here wants to ^{learn} have, and on which the ^{more} ~~more~~ you are an authority the better.

Yours sincerely,
