Professor Sir Ronald Fisher,  
Division of Mathematical Statistics,  
Commonwealth Scientific and Industrial Research Organisation,  
University of Adelaide,  
Adelaide, S. Australia.

My dear Ron,

Many thanks for your letter of 27th April.

Howard Simpson has now taken the value given in your letter of 28th February of  $x = .6614$  to 8-figure accuracy, namely  $x = .66141408$ .

The "Times" gave prominence to your euthanasia, etc. and "Time" to talking cats and dogs.

All the best,

Yours,

*Frank*
