Professor C. I. Bliss
Agricultural Experiment Station
P.O. Box 1106
New Haven 4, Connecticut

C My dear Chester:

Minneapolis was very good, also Milwaukee. I am afraid my efforts to fit in your friend Mr. Lilly at Indianapolis have broken down. They are closed on Saturday, and Bloomington plans to keep me at work all Friday.

O I should be prepared to give a talk at Columbia on the 11th, if this does not interfere with your plans for me. The latter, however, has precedence. In my case I should hope to give the Lockwood lecture.

Sincerely yours,

P Sir Ronald A. Fisher

RAF/rm
