

17 February 1933.

Major L. Darwin, Sc.D.,
Cripps's Corner,
Forest Row,
Sussex.

Dear Major Darwin:

Some little time ago I sent you a carbon copy of a paper on Determinism and evolution, which I had written. Did you ever send it back? You may have kept it by you pending a reply. If so will you let me know, and when convenient send it along, as I have not yet succeeded in extracting the copy from Mrs. Mason.

Yours sincerely,
