

Do not over-work yourself in
America, It is, here May 18-31
especially, a real danger.

CRIPPS'S CORNER,

My dear Fisher.

This is mainly to
wish you every good luck on
your journey. It is suits
your book to invest for six
years, as I hope, I should do
it. The State does not scruple
to seek for loopholes in your
references. But I should suggest
if you must do that. It
would be a bother to be
actually prevented from
sailing because of unpaid
income tax.

I am going to write you
a long letter about my father's
views. I guess you would want
it in America. It is so sad.

it after you, perhaps to read
on the voyage home, it will be
a copy, which if lost will do
no harm.

I am glad you like
my message. Your comments
are very few, not many. I
might add some sentence
like the following "And in
this connection, ^{economic} problems in
connection with the ^{financial} economic
position of the family are
urgently in need of consideration.
That is being drafted.

Well, the best of luck,

Yours sincerely

Lemond Dawson
