

May 15-31

CRIPPS'S CORNER,

FOREST ROW,

SUSSEX.

Dear Fisher.

Kindly give me briefly  
your comments on enclosed,  
especially on pages 4 & 5.  
Will the scientific world say  
it is sound? I have been  
asked to write a special  
Preface for What is Eugenics?  
for the American Congress<sup>32</sup>. I  
am taking time by the  
forelock. One must put in  
some gutter, more especially  
as some paragraphs are not  
so generally pleasing. They speak  
of free divorce now. Any

remains gratefully received  
— though you know I am  
an obstinate man!

When do you go to the  
U.S.?

Yours sincerely

L. Darwin

I wanted to try to get  
rather a new way of  
putting, so as to make  
people think.
