My dear Fisher,

Thank you for letting
me see the enclosed
memorandum which as
you say states Miss Ricketts
case very ably. From
an point of view I wish
the fact that many social
classes are actually dying
out could have been
emphasised. For instance
in para. 3 I should like

To know which of the classes there
mentioned are self supporting
in a racial sense. In fact
the Eugenic side might be
more emphasized though very
possibly from her point of
view she did what was
best.

Yours sincerely
Leonard Darwin.
