

Jan 10 - 31

CRIPPS'S CORNER,
FOREST ROW,
SUSSEX.

Dear Fisher.

I am sending you by
another route a letter or article,
which may not have reached
you yet. If you think the things
worth publishing, please see that
I do not blunder; for you are the
high authority mentioned. I added
together the percentages in my
simple minded way which I guess
was wrong. I now think the 30%
should be ^{about} 27%, and the
100,000, "nearly a hundred thousand"
or "about a hundred thousand". I
send you Nature to save you
hunting for it: please return it
in haste.

Yours sincerely

D. Darwin
