

Jan 2 - 31

CRIPPS'S CORNER,
FOREST ROW,
SUSSEX.

My dear Fisher

I was delighted to see
the receipt of your book in
the J. of H. Let me confess
that I have only read the
first page. I just saw that
he later on disagreed with you
on some points. I do not think
that matters a bit. It will
but give you food for your
second edition.

The J. of H. promised to
publish my Aruchai Siana
article. If they do it will be
a little late now! Langdon
said he would get C. G. Darwin's

review of your book published, I
think he said in the
"Engineer". He also has proved
faultless.

I have been wanting to write
to you on 2 subjects for about
a month; but Twicken
helped & 2 other jobs have
taken up all my small
available energy.

Yours sincerely

L Darwin
