

Sept. 13-30

CRIPPS'S CORNER,

FOREST ROW,

SUSSEX.

My dear Fisher

Yes, I saw the enclosed with much satisfaction. I return it in case you like to have it for other purposes. I don't know enough of Chesters Mitchell to judge. If he did write it, he goes up in my estimation with a jump. There was a silly review of my big book in the Lit-Sup, which I put down to him, perhaps quite erroneously. But I think he has written unwisely about "Eugenics". It is strange the Times taking the lead.

I have been wanting to answer a letter in my unopened letter box from you for some time, & I hope I shall soon. Twitchee's affairs continue to give trouble, & I can't do much for them.

I have been reading with much interest an article - or rather 2 articles - by one Calvin Hoover, of the USA, on Russia in the Economic Journal for Oct & June - It gives a forecast or what you may possibly live to see, & shows that the Russians have done what I should have thought impossible. But at a cost!!

Yours sincerely

Lennard Dawson
