

Nov 13. 36

CRIPPS'S CORNER,
FOREST ROW,
SUSSEX.

Dear Fisker.

I have heard nothing of you for a long time. Are you back in England? Have you so far got into your stride here as to be able to bear a letter from me? I like to write to you from time to time even if I have nothing particular to say. Don't answer if much pressed.

Lord Dawson made a good speech in the H of C. reported in the Times of Nov. 11. I have been trying to remember about the

Scott's official enquiry, X years ago, X being less than 8 I guess, in regard to the state of poor families. They reported, I believe, that the character of the mother was the circumstance most closely correlated with the condition of the children. It would have been a good point for Lord D.

Answer, if at all, at your leisure.

I hope America was a success

Yours sincerely,

Lennard Darwin
