

July 25 - 30

CRIPP'S CORNER,

FOREST ROW,

SUSSEX.

My dear Fisher

It always interests me much
to puzzle over your conclusions,
but I must put this lot aside
for a bit. I have been - for me - a
bit snowed under with Turkish
correspondence; for there are financial
troubles in several directions.
Also a French translation of my
little book has been going astray.
And I fear time is really my
great enemy. But I shall
have a try as far as I can.

Yours sincerely

L. Darwin.
