

July ² 30.

CRIPPS'S CORNER,
FOREST ROW,
SUSSEX.

My dear Fisher.

My nephew Charles sends me a proof of his review of your book. I hope that it pleases you — I think it ought to. I was rather alarmed after I had suggested his name, for I felt uncertain what time he would take.

I send you part of his letter to me — always rather a dangerous thing to do. The last sheet deals with some family affairs. He says no doubt many

of his scribbled criticism are
wrong. Let me know if you
would care to hear any
more of what he thinks. I
got home ~~tomorrow~~ Friday.

The J of H of America said
they were going to publish their
little article of mine from
Ann Chai Science. I am
wondering whether it would not
be better if they would
replace it by this review,
if my suggestion came in

time. Any remarks? R-SV-P.
Thank you

Yours in haste

Lenard Dawson

Is there any other American
Journal which would copy
Charles's Review?

In reading Charles's letter
to me, remember he never
intended you to see it, & I
sent it lazily to save me
trouble. To you he would have
enforced himself very difficultly
Please return his letter
