

April. 6. 30

CRIPPS'S CORNER,
FOREST ROW,
SUSSEX.

My dear Fisher-

Many thanks for the
"abusive comments". It is always
the act of a friend to write
what one really feels. I have
several little jobs on hand that
I must do, and I shall put aside
this work for a time, possibly
for a long time, which may
mean *suicidè*. I have not read
your notes in the margin yet,
only your letter. I did not
mean to take the flat-rate
scheme as typical of family
allowances, but typical of what is
likely to be proposed; and recent

Events seem to justify that view.
I did not mean to speak of
our population as still
growing, except possibly in the
sense in which it is growing.
But I must read you detailed
notes to understand the
bearing of your remarks, which
I doubt at present. I wish we
could have a good talk. But
as I say, I must put it all
aside now. I certainly wish
we had it long in our hands,
how the allowances are
introduced. I wish see if I
can write about Poulchui. I
want to write something carefully
about him in the July review.

Yours sincerely
Demond Dawson.
