

July 2. 29

CRIPPS'S CORNER,
FOREST ROW,
SUSSEX.

My dear Fisher

I like your dedication, &
I still more like the thought that
you want to insert it. Whatever
wording you select I shall be
pleased with. If it is to "indicate
what I have wished to do it is
certainly true to speak of the
"encouragement given to the author
during the last fifteen years by
discussing many of the problems
dealt with in this book".

The big pile of m.s. has
come to hand, and what-a pile!
If you want it back by any
particular date, let me know.
I did not know that you had got

a publisher. Have they boggled
over terms? I hope they won't
boggle over corrections, as I
have known them do.

Yours sincerely

Leonard Darwin

P.S. Received a copy of the
~~resolution passed at~~
Zurich. It is excellent.
My only doubt is as to
the value of existing records,
which have been often
carelessly taken, so I am
fold.
