CRIPPS'S CORNER,

FOREST ROW,

SUSSEX.

My dear Fisher

I was delighted to see the R.S. list in the Times. You have won a well-deserved honour, and you may justly be proud and pleased. I am also glad that the R.S. is beginning to realize the place that statistical investigation must play in science. Please tell

M^{rs} Fisher that I congratulate
her also, for I am sure that
she rejoices in your
successes. My god son also will
learn to appreciate his
father's work, and how it is
estimated in the world of
Science

Yours sincerely

Samuel Darwin
