My dear Fisher.

I did not know that you  
had arrived at a definite  
decision in regard to the MacBride  
letter. What I said was that, as  
far as I could judge without-  
reading it, it would be best to  
publish it, and that Mrs H  
should take your opinion. I  
have written to her to say  
that it is not to be published  
until it has come up before  
or decided by Hon. Secs  
a Committee. She and I go to  
Amsterdam on Friday for 10

days or so for the International  
Engineer's meeting. I was very  
anxious she should have a few  
days holiday after our meeting,  
as she has had very little for a  
year. And the staff questions are  
very difficult. I hope to get  
back on Sept. 27. I think our  
Council is on Oct. 12. I would  
come up on Oct. 5. for a meeting,  
if you arrange me, and think it  
necessary. MacBride's letter could  
not appear in this review I  
guess, in that case. I fear there  
may be the making of a row.  
Get MacBride to the meeting if you  
can, ~~and~~ <sup>when you</sup> arrange me.

Yours kindly

L-D

P.S.

I guess I shall be rather tired  
out by my Turkish experience.  
I have to give a memorial  
lecture at Bedford College on  
Oct. 25. This I shall be busy at  
all Oct. 25. If we have to have  
long meetings, I should prefer them  
on or after Oct. 26, if that is  
not too late. I thought I would  
let you know this. If I can  
I don't want to come to town  
more than twice a month, or

The first <sup>two</sup> Wednesdays,  
when I sleep one or two  
nights. This is just to let  
you know how it stands  
with me. I wish you had  
a younger man for this job!

LD

I certainly will come another  
day in October, if it will  
be really useful.
