

April 21. 26

CRIPPS'S CORNER.

FOREST ROW,

SUSSEX.

My dear Fisher

Thanks for interesting
yourself in the Review question.

I am sure the Dean's offer to
us was spontaneous. Whether he
will review for the Times is not
known. The Editor of the Lit.

Sup. is a touchy man, and
has to be approached with
care. All that has been done is
to that he, the Editor, has been
approached in the most
judicious way possible, but no
answer was received. It must
rest at that. I don't see why
others should not write ^{for us}, I have

ventured myself to suggest to
M^r H. that she should sound
Roswell Johnson to see if he
would care to write an American
appreciation. But I don't want
to interfere more than I can help.
Will you or Cutler raise the
question this day week if either
of you come to the office's meeting?
I am very glad you review it
for Science Program. See enclosed
as a hint for the style you
may wish adopt. However if
segregation is "one of the mildest
things that will happen to" us
I don't see how you will
escape!!

Yours sincerely

L. D. Aurora
