

Nov. 10 - 34

CRIPPS'S CORNER,

FOREST ROW,

SUSSEX.

Dear Fisher.

I am looking through A decade of Progress of Eugenics, - the last American Congress - which no doubt you have. As far as I have got it is poor stuff. But I hope you will read a paper by Muller p 138. It is plain to me, I take it, that socialism is our only chance, in which I do not agree. Some of his arguments are striking however; and I wish in your lectures, if you give them, you would answer his contentions on p. 141. Now do not answer this. It is only my blowing off of steam

Yours sincerely
Lemuel Darwin
