Sussex

My dear Fisher.

I am truly pleased that you and M^{rs}. Fisher would like me to be godfather to the precious boy, and that Leonard should be one of his names.

You know my views on religious questions more or less. I believe there is some mighty power demanding that we do good, but as to what that power is I must be content to wait or never to know. But that

I do not hold more definite
views does not seem to me to
debar me from consenting, & it
does not prevent you from
asking. I shall any how watch
his career with interest, even
though I don't watch it for
very long. I hope to come
down to Rothamsted again
some day, though it is a little
difficult to fit things in.

With warm congratulations to
your wife

Yours sincerely

Leonard Darwin
