

March 2. 34

CRIPPS'S CORNER,

FOREST ROW,

SUSSEX.

Dear Fisher.

I have been asked to write something for the <sup>our</sup> Review on Stereotaxia, and in my old age I am finding it hard work. Will you, please, give me a little help? Read over enclosed please, and let me know if you think I blunder anywhere, especially on technical points. Don't trouble to argue the points, but merely say "I don't agree", or "better leave it out". In fact any help you can give me. I send one para. about Goddard,

which you may not agree  
with, but which I should like  
you to see.

If I do mention Tredgold, I  
shall probably tell him in  
advance. It is really intended  
as an olive branch, which  
he does not-deserve!

A pencil number in margin  
corresponding to your notes  
may be the best plan.

Forgive me from  
you

Yours sincerely  
L. Darwin

Error in style of no  
consequence; as I shall  
correct it.  
I have not read over this  
copy.
