

WATERLOO PLACE

W. 13.

5th March, 1919.

Dear Fisher,

Thanks for your letter. The Egyptian work sounds interesting, but as you say the doubtful thing is whether the climate will suit your wife and children. It is very hot in the summer and some people find it very trying. Let me know when you are in town, as I should like to talk some matters over with you.

Wishing you good success,

Yours sincerely,

Lenard Darwin
