Dear Fisher,

Whetham is writing an article in the Quarterly on "War and Racial Deterioration". I have promised to help him - and when I say "I" I mean the Society - with reference to literature on the subject. If you could spend a short time next Tuesday in looking out literature which might be helpful to him, it would be a very useful bit of work. There are several references in Starr Jordan's last work which may put you on the track. I will get Miss Norry to do what she can.

Yours sincerely,

L. Darwin
