My dear Fisher

I am sorry not to
have been able to write to
you before concerning the
Eugenics Educ. Soc. The
Society could and would
pay you a salary ^{at the rate} of £100
a year for the year 1916
if you were to continue to
work for it. You will
naturally ask me what you
would be expected to do.

I do not think it is very wise
trying to lay this down very
precisely. To give you an
indication of what is in our
minds, I suggest that you
should aim at giving us
about one quarter of your
working time, this time to
be spent on the Society's
business, or, in default of that
on Eugenic investigation. There

is no hurry in coming to a
decision on this matter.

I have not yet heard
whether you will be able to
come up one day a week
this term. I hope so.

Whether it is worth your
while staying on next year
you must judge. I should be
very glad you were sticking
to it.

Yours sincerely

Leonard A. ...
