

9th. March 1946.

My dear Henry,

I forgot to say yesterday that I have working with me now one, Wing Commander Carter, and would like to make the suggestion that if by any chance you want an able and willing hand with the Dominula this year, when I shall unfortunately be in the States, he would think it a great privilege to join you at the time when catching needs to be most active. As I myself seldom added more than about 10% to your catch, I should be glad vicariously to give more active assistance this year.

Yours sincerely,
