

DEPARTMENT OF  
ZOOLOGY AND COMPARATIVE ANATOMY,  
UNIVERSITY MUSEUM, OXFORD.April 25<sup>th</sup>: 1942.

My dear Fisher,

Thank you so much for your letter (which will have crossed one ~~page~~ from me in the post). I am so glad to hear that you are going to get a holiday in the West. I am sure you must need it. I see that you think of going to Plymouth, and perhaps to Curcwin's primitive colony which I am sure needs investigating. How I wish it were possible to do it together: that would have been a very great joy to me - but the undergraduates returned today. It would be most awfully nice if we

could do something of the kind together some day!

You will have heard that the Annual General Meeting of the Zoo has been postponed indefinitely from the 29<sup>th</sup>. I do not know what to make of this. I am so glad to hear that people seemed to have enjoyed the meeting the other day. I heard several people saying that they thought it a success.

How very kind of you to suggest a visit to Harpenden. That would be delightful; and there may well be points in regard to the blood-groups, and other matters, to discuss. Callimorpha dominula does not emerge in the open until July, so all is well as far as that goes. The only drawback that I should find it difficult to get away (as far as I know) is that of the 9<sup>th</sup>, so any of those which you

Suggest (the 16<sup>i</sup>, 23<sup>rd</sup>, or 30<sup>i</sup>) would suit me. So  
please select what you would find most convenient  
(that of the 16<sup>i</sup> would do very well as far as I am  
concerned). I shall look forward so much to it.

With best wishes to Ruth,

Ever yours,

Henry
