

January 18th, 1939

My dear Ford,

I wonder if you could, without inconvenience to yourself, give us your talk on Tuesday, February 14th, instead of on Wednesday, February 15th. Unfortunately, this term, Wednesday is an inconvenient day for several members of my Department, and Thursday and Friday are ruled out that particular week.

We shall be glad to have the exact title of your talk on the genetics of Lepidoptera.

Yours sincerely,
