Treasurer:
PROF. F. CHODAT, GENEVA.

HEDFORD COLLEGE,
REGENT'S PARK,
LONDON, N.W.1

19th March, 1952.

Dear Fisher,

This Union receives a very limited sum of money annually for financial aid to certain abstracting journals of an international character. One of those which we have supported in the last few years is "Resumptio Genetica". It has been pointed out to us by certain geneticists that this journal is not of first-class importance and that we would be better advised to support some other abstracting periodical. If you would care to give me your advice in confidence on this point it would greatly assist the Union.

Yours sincerely,

Professor R.A.Fisher, F.R.S.,
Gonville and Caius College,
Cambridge.
