

31 May 1943

My dear Fox,

Many thanks for your kind note. I had a most cordial wire from Cameron, and if my old college does me the honour, I should much like to live there, as I shall not think of moving my family, at least during war-time.

What is the position nowadays? -- Does Caius offer a Fellowship to all Arthur Balfour Professors automatically without dividend, or is this a matter for deliberation and delay? I hope to be in Cambridge to-morrow, June 1st. Unless you send a message to the contrary (most conveniently to Taylor at the School of Pathology), I will enquire for you there at lunch-time.

Yours sincerely,
