

March 26th, 1936

My dear Huxley,

Thanks for letting me know about the marsupials. I should be very glad, if there is room, to have them parked at the Sanatorium for a time, if only to give us an opportunity of obtaining suitable cages, and knowledge as to their treatment. It would be extremely interesting if you found it possible to get them to breed.

I am afraid I cannot hope to be at ~~the~~ B.A. this year, as I shall be in America during the whole of the Summer and some of the Autumn.

Yours sincerely,
