

January 6, 1942

Dear Taylor,

I am enclosing an application for serum on behalf of a Canadian Naval Establishment in Scotland, with my reply.

I am very glad that Vevers was able to act at once about the Rhesus monkeys. I presume the tuberculus patient is not expected to live long. I hope you will manage to keep the other one at least. Vevers writes that the Zoo will want £2 for the monkeys, and I have no doubt your funds will run to this. It is good of him to be so helpful.

There is to be an R. S. Dining Club Dinner at Oddeninos' Hotel, Regent Street, on Thursday, January 22nd. I should be delighted if you found it possible to be my guest, and to stay/at Milton Lodge on your return.

Yours sincerely,
