My dear Taylor,

Thanks for your letter which clears up all our odds and ends of business. I am very glad you liked my letter to the B.M.J., especially as I had/mentioned both yourself and paternity tests .

Many thanks for thinking that I might like some time to eat another feast at Caius. I should quite love it, as I have the most pleasant recollections of the six years for which, as a non-resident Fellow, I was one of their most reliable clients.

I am very glad too to hear what you say about Punnett.

Yours sincerely,
