My dear Taylor,

The two sets you sent me yesterday are a very remarkable contrast. Your own agree exactly with what you were getting in London, suggesting, as one would expect, great uniformity in the Home Counties, but the Glasgow series practically knocks me flat. In case you have not kept a copy, here it is:

	<u>Males</u>	<u>Females</u>	<u>Totals</u>
O	105	48	153
A	71	44	115
B	30	34	64
AB	2	4	6

You see there are nearly 15% B's among the males, and 26% in the female list. It is not for me to meddle in such matters.

Yours sincerely,
